

# Helping OM Students find Success

Any student struggling in a class is advised to first see their teacher. In some cases additional support may be needed. Below are a few ways students can seek additional assistance outside the classroom.

- Scorp Success: Led by certified teachers, this program is to support classroom instruction by providing tutorial and homework support and study skill assistance. Must complete an application to attend.

Wednesdays and Thursdays 2:15-3:30pm in room 808, contact Mrs. Urszuy

- Math National Honor Society: members are available two days each week to assist students in Algebra 1 and Geometry.

Tuesdays and Thursdays 2:15-2:45pm in room 604, contact Ms. Gulotta

- Tutoring by the Alpha Achievers: tables in the Media Center will be labelled by content area (Science, Math, Social Studies, English ...) and Alphas will assist with explaining concepts covered in class and with homework assistance.

Tuesdays in the Media Center 2:15-3:00pm, contact Mr. Ringgold

- Spanish Advanced Placement Students (one on one tutoring, small groups): Advanced Placement (AP) Spanish V students of Ms. Powell and Mrs. Gimpel are willing to tutor Spanish 1 and 2 students. Student should see their teacher.

- Tutoring by the National Honor Society members: a few members of the NHS will be volunteering their time and services as academic tutors. Interest in seeking these tutors should go through the student's School Counselors.
