

How it works

Picture Day **Snaps @Home** for yearbooks

DOWNLOAD THE SHUTTERFLY APP

Start creating school pictures from home by downloading the Shutterfly app.

SELECT A PACKAGE

Choose any photo package. *You don't have to purchase a package to download a Picture Day Snap.*

SMILE! IT'S PICTURE TIME

Capture a new photo or upload an existing image to the app. *Remember to capture a head & shoulders image for the yearbook.*

SELECT YOUR BACKGROUND

Choose the background your Adviser recommends for the yearbook. *Only the Blue background is available at no charge.*

ADD THE PACKAGE TO YOUR CART

Add the image to your cart. It is now available to download. Portrait packages are also available for purchase.

SHARE YOUR DIGITAL IMAGE

Click **My Photos** in the Shutterfly app to access your digital image. *Follow the instructions from your school or yearbook adviser to submit the photo to your yearbook.*

How it works

Picture Day Snaps @Home for yearbooks

To use Shutterfly Snaps @Home, you'll need to download the Shutterfly app on your mobile device.

Step-by-Step Instructions for Using Picture Day Snaps@Home

- 1 On the Shutterfly welcome screen, scroll down and select **Picture Day Snaps @Home**.
- 2 Click **Start Now**, then choose any photo package, like the Basic Package. *You don't have to purchase a package to download a Picture Day Snap.*
- 3 Click **Take a Photo** to take a new photo now or **Choose a Photo** to pick one from your camera roll. *Remember to capture a head & shoulders image for the yearbook.*

- 4 After the app replaces the background color, click **Add to Cart**. You can now download it from your Shutterfly photos. You also have the option to purchase a portrait package.
- 5 To download the image, click **Photos** at the bottom of the app screen.
- 6 Select your image and then click the **Share** icon - it looks like an arrow. You can now save the image to your camera roll.
- 7 Follow the instructions from your school or yearbook adviser to submit the photo to your yearbook.
